

TOUCHSCREEN POS TERMINAL

# POSTOUCH 300

THE ULTIMATE POS SOLUTIONS

**POStouch 300: discreet,  
and excellent value!**

**With its 10.4 inch screen,  
POStouch 300 is the smallest  
fully-integrated touch-screen  
system on the market. •**

Easy to use, clever and compact, it is the ideal equipment for both small retailers and department stores, whether stand-alone or networked. Thanks to its VIA 733 processor it operates fanless and is therefore noiseless.

Available with keyboard with replaceable legends, optional built-in customer display and card reader for magnetic and/or chip cards, POSTOUCH 300 is the ideal partner for retail applications.

In black or beige, it blends perfectly into any sales outlet.

**Options:**

**Built in customer display**

**32 keys keyboard  
(programmable) with smart  
card reaser (or not)**

**Swipe magnetic card reader**

**Wi Fi interface**

**“thin client” mode  
compatible**

**FEATURES:**

- Available in POSligné® PACK
- Silent (VIA 733 processor)
- Card reader
